

Society has shown no signs of languishing during the week and trolley and lake parties, afternoon teas and outdoor diversions have made it quite the social week of the heated term. The trolley excursion is now the popular event and bids fair to be longer lived than the more passing fad. The social happenings of note were the telescope party of Miss Young's, Miss Shearman, Miss Young's, Miss Long's at home, the Donnellan tea, the Wallace function and the Glendinning-Wallace trolley party.

There has been quite an exodus to Brighton's in the past week. A pretty afternoon tea was given by Mrs. John Tilton Donnellan on Wednesday in compliment to her sister, Mrs. William B. Bates, of Denver. A large company of guests mingled in the neatly decorated room. There was a profusion of white rose and carnation blooms, and smiles were arranged with effect in each of the apartments.

The dining room adornments were artistic, and here Mrs. Gaynor, Miss Wallace, Mrs. Shearman, Miss Rookledge and Miss Woodward graciously presided. A large punch bowl in the hall was in charge of Miss Kerr. The event was in every way a delightful one, and many a witty feature made the hours pass swiftly.

The elegant hospitalities of "The Porches" at Popperston were enjoyed on Thursday evening by a large party of guests who were charmingly entertained by Mrs. Wallace.

A spacious hall in the upper part of the residence had been made ready for dancing, and this proved a most entertaining diversion. Music and refreshments were also among the charms of the occasion.

The guests were Mr. and Mrs. Allen, Mr. and Mrs. Styer, Mr. and Mrs. Trumbo, Mr. and Mrs. Read, Mr. and Mrs. Hemstead, Mr. and Mrs. Wither, Dr. and Mrs. Wishard, Mr. and Mrs. Donnellan, Mr. and Mrs. Post, Mr. and Mrs. Wantland, Mr. and Mrs. Sprague, Mr. and Mrs. Sharp, Mr. and Mrs. Grant Smith, Mr. and Mrs. Zane, Mr. and Mrs. Ried, Mr. and Mrs. Tschody, Mr. and Mrs. Robertson, Mr. and Mrs. Morse, Mr. and Mrs. Holder, Mr. and Mrs. Park, Mr. and Mrs. Bidwell, Mesdames Bates, Turner, Lane, Messrs. Weber, Miss Lowe, Miss Young, Miss Woodward, Miss Read, Miss Cary, Miss Anderson, Miss Harkness, Miss Allen, Miss Donnellan, Miss Alf, Miss McCormick, Miss Lawrence, Miss Kimball, Miss Crawford, Miss Harkness, Miss Rookledge, Miss Hoge, Miss Schiele, Miss Gilmer, Miss Sprague, Miss Park, Miss Hooper, Miss Mary Jennings, Miss Bacon, Miss Conklin, Miss Allen, Miss Fullerton, Miss Shearman, Messrs. Sharp, Miss Pollock, Mr. Pavey, Pendergast, Gallagher, Murray, Max Smith, Allen Smith, Putnam, Ellsworth, Glendinning, Shoup, Almer, Hampton, Holland, Knight, McKay, Cobb, Scott, Kerr, Kimball, Lawrence, Hanauer, Shearman, Thorley, McCormick.

Joe E. Gallagher left for Soda Springs last night and will remain there for several weeks.

Max Hanauer and the Misses Hanauer were among the departures last night for Glenwood Springs.

Miss Ora Harkness will spend a week at picturesque Manitou.

A roof party was given on Thursday night at the Alta, and J. E. Gallagher did admirably the honors of host. The function was unique, and the party of guests entertained thoroughly enjoyed it.

The Mackintosh residence on East Brigham was a scene of gaiety on Monday. Mrs. Charles D. Rookledge and Miss Helen Shearman were the hostesses and a telescope party was the attraction. The event was none the less delightful for being very informal, and about forty guests enjoyed the pleasures of the evening. The telescope had a place on the lawn, and night's chief luminaries and the artificial satellites were critically scanned. The Ladies' Mandolin and Guitar club made the air resonant with soft music and on the veranda refreshments were enjoyed.

Mrs. S. P. Twiss is visiting her son, Mr. J. M. Bidwell, of this city.

Miss Bertha Reed was the hostess on Sunday night at a dinner at the Knutsford.

A musicale was a delightful attraction at Red Butte hollow on Wednesday night, when Miss Grace Young entertained in honor of Miss Ruth Lee-Kerr. The event was none the less delightful for being very informal, and about forty guests enjoyed the pleasures of the evening. The telescope had a place on the lawn, and night's chief luminaries and the artificial satellites were critically scanned. The Ladies' Mandolin and Guitar club made the air resonant with soft music and on the veranda refreshments were enjoyed.

Mrs. Hamilton is now in San Francisco.

Mrs. Kimball, Miss Blanche Kimball, Miss Nason, Miss Lawrence and Miss Lowe left yesterday for Soda Springs, to be the guests of Mrs. Fox.

Last night quite a party of society devotees left for Glenwood Springs over the Rio Grande Western. The members of the party were: Mr. and Mrs. David B. Hemstead, Miss Hemstead, Miss Sprague, Miss Woodward, Miss Kerr, Miss Crawford, Miss Shearman, Miss Helen Shearman, Miss Edna Shearman, Miss Alf, Miss McCormick, Miss Lawrence, Miss Kimball, Miss Crawford, Miss Harkness, Miss Rookledge, Miss Hoge, Miss Schiele, Miss Gilmer, Miss Sprague, Miss Park, Miss Hooper, Miss Mary Jennings, Miss Bacon, Miss Conklin, Miss Allen, Miss Fullerton, Miss Shearman, Messrs. Sharp, Miss Pollock, Mr. Pavey, Pendergast, Gallagher, Murray, Max Smith, Allen Smith, Putnam, Ellsworth, Glendinning, Shoup, Almer, Hampton, Holland, Knight, McKay, Cobb, Scott, Kerr, Kimball, Lawrence, Hanauer, Shearman, Thorley, McCormick.

The Odd Fellows give an excursion on Tuesday, August 20, to Garfield.

A pleasant lake party of the week was that given on Wednesday to Saltair by Mr. Pollock. A small company of society people enjoyed the trip.

For a mirthful and sociable occasion the trolley party is an eminent success, and the one given on Tuesday evening by George Y. Wallace and Malcom Glendinning was no exception to the rule.

The party consisted of about forty society votaries of the younger set and at about 7:30 the company entered two rapid transit cars in holiday garb, which were in readiness in front of the Glendinning residence. The trip was made to Murray and return amid much merriment. The party was then conveyed to the Wallace residence, where a delectable supper was enjoyed. Dancing completed the pleasures of the evening.

Mrs. T. J. Forhan, wife of Dr. Forhan, is visiting her son, Mr. J. M. Bidwell, of this city.

Miss Bertha Reed was the hostess on Sunday night at a dinner at the Knutsford.

A musicale was a delightful attraction at Red Butte hollow on Wednesday night, when Miss Grace Young entertained in honor of Miss Ruth Lee-Kerr. The event was none the less delightful for being very informal, and about forty guests enjoyed the pleasures of the evening. The telescope had a place on the lawn, and night's chief luminaries and the artificial satellites were critically scanned. The Ladies' Mandolin and Guitar club made the air resonant with soft music and on the veranda refreshments were enjoyed.

Mrs. Hamilton is now in San Francisco.

Mrs. Kimball, Miss Blanche Kimball, Miss Nason, Miss Lawrence and Miss Lowe left yesterday for Soda Springs, to be the guests of Mrs. Fox.

San of Colorado, is visiting her sister, Mrs. E. F. Colborn.

Miss Jenne Long was the hostess at an "In the Moonlight" party on Tuesday night. The guests enjoyed the evening on the lawn, where refreshments were served. These present were Judge and Mrs. Miner, Mr. and Mrs. J. H. Bacon, Mr. and Mrs. Jules La Barthe, Mr. and Mrs. Alf Beasley of Peoria, Ill., Mr. and Mrs. C. M. Owen, Judge and Mrs. Grant H. Smith, Mr. and Mrs. Ira Tuttle, Mrs. Swenson, Mrs. Pitts, Mrs. Pancke, Mrs. Cochran, Mrs. Bertha Curtis, Miss Gregory, Miss Nellie Bamford, Miss Ramey, Miss Lucille Ramey, Miss Romney, Miss Florence Ramey, Mr. Gunter, Mr. C. B. Jack, Mr. Joseph Jack, Dr. W. W. Betts, Kenneth Kerr, Charles Caine, Mr. Kennedy, J. S. Franken.

Mr. and Mrs. J. E. Bamberger returned yesterday from a week's visit at Glenwood Springs.

Miss Daggett, of New Haven, is the guest of her brother, Mr. Ellsworth Daggett.

Waldemar VanCott went to Logan last night and will not return for several days.

D. C. Adams left yesterday for Soda.

Allen Smith, who now wears the ministerial prefix of reverend, is again with his Salt Lake friends.

Mrs. Woodward and Miss Woodward have cards out for Monday night, when they will entertain in honor of Miss Kerr.

Mrs. George W. Snow and children are at home from Brighton.

R. K. Thomas and wife leave tomorrow for New York.

Mrs. Kate Young Barendt and Mrs. Helen Jackson left for their home in San Francisco yesterday after a pleasant visit with old friends in Salt Lake.

The Miss Keith, of the Park, are visiting Miss Agnes Judge.

Mrs. Captain Barrell was given a pleasant surprise party on Thursday evening in honor of her fiftieth birthday.

James A. Pollock went to Colorado yesterday morning and will remain several days.

Mr. and Mrs. Harry S. Margret celebrated their wedding on Friday night in a pleasant manner. A large party of guests assembled at their residence, where Chinese and Japanese lanterns gave a cheery appearance. In the interior, neatly decorated tables were spread and a beautiful luncheon was partaken of. The guests were: Messrs. and Mesdames Phil Margret, John McDonald, John Beers, Orson Rumel, William Rumel, P. E. Margrette, George B. Margrette, W. C. McDonald, E. G. Brooks, O. B. Margrette, George Snegrove, H. Pembroke, Sam Rudd, David Margrette, W. C. McDonald, Abby Ward, Minnie Margrette, Ella McDonald, Grace Holman, Mrs. C. S. Margrette, Mrs. A. Rumel, Mrs. O. H. Hardy, Mrs. A. Holman, Mrs. C. S. Margrette, Mrs. Reta Margrette, Mrs. J. H. Rumel, Jr., Misses Rumel, Messrs. Frank Rumel, Ernest Rumel, F. R. Margrette, John Wardrobe.

The Utah kindergarten excursion to Saltair on Tuesday, the 13th of August, is an event likely to draw a large number of society's "very own" out. This popular resort on that day. The ladies in charge of the affair have worked very assiduously in behalf of it, and a good programme has been arranged by them for the day's amusement.

The choir of the Eighteenth, Twentieth and Twenty-first wards will take an outing to Saltair on Wednesday.

Camp at Mill D.

The Mill D's are still in the canyon. Big Cottonwood never looked lovelier than now. Everybody sits up nights to see the moon rise over the mountains. It is magnificent.

There was an exodus from the camp last Sunday in the persons of Messrs. Plunkett, Tobin Vorse, Looftbourrow and Mrs. C. E. Tolhurst. Mrs. Tolhurst and Mr. Tobin returned Wednesday bringing with them a reinforcement of provisions. They were hailed as rescuers by the famishing crowd.

Soon after the departure of Miss Margaret Uiter and Mr. Baker Miss Gladys Harrison propounded the conundrum (which was rather too much for the average intellect when in camp) why shall we run short of bread now? It is supposed that the answer was, "Because our baker has gone." But when this conclusion was arrived at Miss Harrison was nowhere to be found. There is safety in flight.

The guests at the camp this week are Mr. David E. Allen and daughter, Miss Clara M. Allen, of Nebraska City, father and sister of Mrs. A. McCaul now at the camp. It is rumored that Isaac Davis, Esq., went to the city Friday to bring up a certain young lady, Miss Lucy Wells, who has been staying at Brighton's is also a guest at the camp.

There was considerable of a scare among the fair portion of the Mill D's one day during the week, on the appearance within the precinct of the camp of two tough looking individuals armed to the teeth. The fair portion of the campers just referred to made a precipitate exit through the rear end of the dining room tent. The evening before, the conversation had turned on the two desperadoes who were supposed to be in hiding not far off. It turned out, however, that the individuals in question were only two deputy marshals.

Captain Goodspeed has graced the festive board of the camp on several occasions. This captain is also an excellent host. His guests during the week having been Mr. and Mrs. A. McCaul, Mr. and Mrs. Allen and Mrs. C. L. Plunkett and it should be added, Mrs. R. A. Davis, who is a frequent guest. The captain is an excellent cook, as his guests can attest, but then, he comes over to the camp so often.

One of the innovations of the camp is the introduction of bloomers. This is not universal, for there are, even at Mill D, some people who look askance at a lady in bloomers. But Miss Rose M. Larson, who rode a wheel part of the way here is not so easily deprived of the prerogatives of the "new woman."

For fishing, hunting and mountaineering, they are voted a success. It is given out as a fact that the success of this young lady's angling (fishing for trout) is due to the painstaking efforts of W. Julius Hanson, who was careful on one expedition to tell her all that he knew.

This young gentleman has been in demand at Brighton, there being a scarcity of the masculine gender at that resort. The Mill D's delegated him as their best representative at an enchanter. He came back with the booty prize—a lantern. But he is still in the dark.

Mr. and Mrs. Pratt, of the Johnson Pratt drug store, with children, Roman and Herschel, and Mr. and Mrs. John Day, dated the camp a welcome visit on Monday. Mr. Day took a picture of the D's including the men, as they were feeding. It was breakfast time. If a "lean and hungry look" appears upon the plate it will not be surprising. He also took a picture of "the parson's" quarters, but Professor Whiting wasn't there. Mr. Hunter pretended to be fishing at the time, but professionally speaking, he is a better "fisher of men."

We now have a perfect plant run by electricity, for the manufacture of the High Grade Three Crown Baking Powder.

What About

A valise at cost? We have 'em. Brown, Terry & Woodruff, 142 Main street.

At Saltair Today.

Christensen's orchestra will render a fine musical programme today. You will enjoy a treat to hear it.

ONLY \$1.00 THURSDAY.

To Ogden and Return.

Via the Union Pacific. Train leaves at 9 a. m.

FORESTERS' DAY, AUGUST 15th.

Special prizes for sports of all kinds at Castilla Springs, Foresters' day, August 15.

PERSONAL MENTION.

Dr. E. W. Whitney is going out in the hills for a short vacation.

Dr. Joseph Thatcher, the popular Logan dentist, is in Salt Lake on a visit of a few days.

A BOUNTY FOR SCALPS.

There is still plenty of sport and some money in big game hunting in the Northwest.

There is enough wild game left to be an annoyance to farmers in Benton County, Oregon, and the county court has just offered a bounty of \$250 each for cougar or panther scalps, \$250 for wildcat or catamount scalps, and \$1 apiece for scalps of wolves.

SEASICKNESS ON LAND.

According to a Broadway cable car conductor one may get "seasick" on land as well as on the sea. It is the cable car sickness.

"Do you know," he said, "that there are thousands of people in New York who cannot ride on cable cars? I have never heard anyone explain why, but numbers and numbers of people get deathly sick as soon as they enter a car which is in motion."

"Whether or not it is the motion of the car that causes it, I do not know, but almost every day I am compelled to stop my car to let sick people off. Thin people and children seem to be the most affected."

"Persons who have been seasick say the sicknesses are exactly alike in effects."

MUSIC AND MUSICIANS.

Following is the programme for the band concert at Fort Douglas at 5 p. m. today:

"Star Spangled Banner," "The Silver Trumpets," "The Boston Banner," "Vivian Overture," "La Marseillaise," "Bouillon Waltz," "Blue Bird," "Waldteufel Selection No. 1," "Fante," "Gottfried Fantasia," "Emerald Isle," "The Blue Bird," "The Olden Times," "Beyer 'Hail Columbia'."

"The Band Played On," the latest New York success of which over a thousand copies were sold within a week, and its appearance in the New York World, has been received at Calder's.

Following is the programme for the open air concert to be given at Liberty Park by the band of the 1st Cavalry, U. S. Army, at 8 p. m. today:

"Empire State," "Collins 'Hearts and Flowers' Caprice," "Tobani Stage in Ironed," "Medley," "The Hero," "The Conquering Hero," "Hartman Scotch Wedding March," "Patrol," "Solo for clarinet," "La Marseillaise," "The Boston Banner," "Vivian Overture," "La Marseillaise," "Bouillon Waltz," "Blue Bird," "Waldteufel Selection No. 1," "Fante," "Gottfried Fantasia," "Emerald Isle," "The Blue Bird," "The Olden Times," "Beyer 'Hail Columbia'."

Correct in the Head.

Is a proper condition. We can fit you with a derby or soft hat that is correct. Brown, Terry & Woodruff Co., 142 Main st.

MILL SOON TO OPERATE

New Plant of the Sterling Company Completed.

EXPERT WEIR RETURNED.

HE VISITED THE PROPERTIES IN THE EMPLOY OF THE COMPANY.

Greatly Surprised at the Extent and Richness of the Ore Bodies—Showing in the Sunshine Becoming Better With Every Foot of Development—Incline Now Down Over Four Hundred Feet—There Are One Hundred and Twenty Feet of Solid Ore—Increase Recorded in the Ore and Bullion Receipts For the Past Week—Manager Thomas, of the Niagara, Has Gone East—General Mining News.

Within the next day or two the new mill of the Sterling Gold Mining & Milling company at Belmont, Nye county, Nevada, will be placed in full operation, and with the fifteen stamps dropping on ore it is anticipated that they will pound out \$1,000 a day all the year around. The ten-stamp mill which was placed on the Sterling properties a year ago and removed to the Montgomery group on account of the working out of the former, is said to be a very complete plant and a good gold saver. At present the mines of the company are being worked by the old Huntington mills, and the output is about \$300 a day in gold bullion.

Thomas Weir, the well known mining expert, has returned from an inspection of the properties of the Sterling company in order that his report might be made up at a later date if deemed necessary. He expresses himself as being greatly surprised at the extent of the ore bodies already developed. On the day that he left for Utah the new mill was standing complete in every detail and the water had just reached the plant through the new pipe line, which is six miles in length. The company has decided to discard steam boilers and will in the future make good use of only gasoline engines. One of the latter, for the operation of the big plant, was recently ordered in San Francisco, and its arrival at the mill was expected. It was the failure of the machine to arrive that had caused the delay in the commencement of operations.

GREAT IS THE SUNSHINE.

Incline Down Over Four Hundred Feet All in Ore.

It is very evident that the extent of the ore bodies in the Sunshine have never been appreciated, and even now with the properties shown up in splendid shape, but few have any conception of the riches held in the veins of the group. For a distance of about the main working incline has been driven down on the vein and it is still all in ore of the highest grade below the 300-foot level. This gives a depth of 120 feet of ore of very high grade. The vein dips at an angle of about twenty degrees, while the incline goes down at an angle of thirty degrees.

Foreman Gaskin of the properties was in the city yesterday and stated that the extent of the Sunshine and the richness of its ores would never be fully appreciated until after the mill gets into working shape. The plant is being rapidly pushed to completion, and it is anticipated that by the first of the coming month at the latest it will be ready for the treatment of ores. In the event of the water from Ophir not being received in time a sufficient quantity is to be hauled from Fairfield.

The work of driving the incline is still in progress and stations are being cut every 100 feet. The total depth is 420 feet. It is the intention of the owners to continue the development work in earnest and open up the properties thoroughly.

AGAIN SHOWS AN INCREASE.

Value of the Ore and Bullion Receipts For the Week Jumped Up.

Again did the total value of the reported ore and bullion receipts for the past week show an increase over that of the previous same period. One of the causes for this was the going on record of the Alice with \$2,151 worth of solid waste and a record of several heavy gold consignments, including \$18,000 from the Mercury, \$2,000 from the Sevier, \$2,500 from the Geysers, \$3,300 from the Sterling and a number of other shipments. Neither the Ontario nor the Idaho made any movements, but the Mammoth and the Eureka Hill put out four and fourteen bars of bullion respectively. The total value for the week was \$24,568, which is the highest for a number of months, in fact, the best showing for this year.

Down at the smelters in the valley the receipt of ore and concentrates continues heavy and none of the plants are taking care of the entire lot received. There are but seven stacks being operated at present, and the receipt of the month this morning has been reduced by two, for the Hanauer is to go out of blast altogether for probably two weeks in order that the annual cleanup may be made. Mr. Hanauer left for Denver last night in order to do some more investigating regarding roasters and for the purpose of consulting with his people. He will probably be absent some days.

All of the principal camps of the territory are just now making great records of production and there are more prospects being opened up than ever than for years past. As a matter of fact, everything that is worth anything at all is in operation and the ore output of the territory promises to be extremely heavy this year.

The receipts for the past week were divided among the ore and bullion handlers as follows: McCormick & Co., T. B. Bond & Co., \$2,151; Commercial National, \$2,500; Walker Bros., \$2,131; Pennsylvania Lead Works, \$14,200; Bamberger & McMillan, \$48,615; Bank of Salt Lake, \$2,700; Wells, Fargo & Co., \$17,130.

COMPLETED THE INSPECTION.

General Manager Thomas, of the Niagara, Has Gone East.

Having completed the inspection of the properties of the company, for which he came to Utah this time, General Manager Thomas of the Niagara left for Colorado last night in order that he may give his personal attention to the developments being carried on in the properties owned there by himself and associates.

The general manager spent several days in Bingham and made a thorough examination of all the workings. In response to a question put by the Herald reporter, he stated that the showing in the great tunnel was now of a more encouraging nature than for some time past. The face is in over 2,600 feet, and still in the hardest kind of quartzite. It is thought that the true vein will soon be encountered, however.

The several properties of the company which are being operated by lessees are giving very satisfactory

returns. At the Spanish the production of gold bars is regular, as is also the case at the Commercial. All the mines are low grade propositions, but the economical treatment of the ores enables the lessees to make a handsome saving on the month's run.

HELD THE ANNUAL MEETING.

Stockholders of the Gold Belt Mining Company Get Together.

The stockholders of the Gold Belt Mining & Milling company have just held their annual meeting for the purpose of electing a board of directors to serve during the coming year and for the transaction of any other business that might be taken from the table. The properties of the company are located in the Marysville country and a contract has just been let for the working of the necessary assessment showing. The group is adjoining the Sevier and other producers.

At the election of directors the following gentlemen were chosen: J. J. Stewart, president; James A. Chute, vice president; W. M. Hicks, secretary and treasurer; other directors, W. F. Colton, W. M. Ames, D. A. Depeue and W. E. Jacobs.

Completed the Run.

Having completed the run on the custom ores shipped from the several mines tributary to it, the Lead mill at Bingham has ceased operations for the present and it is hardly likely that it will again be in use before the first of the coming month. There are some changes in contemplation in connection with the plant, but just what they are is not known. Superintendent Legg is in the city and states that the two months operations were of a very successful nature.

Made Silver-Lead Discoveries.

Some discoveries of silver-lead properties have just been made in the vicinity of Iron City, Iron county, and it was for the purpose of ascertaining how near they are to properties located by himself and Matt Cullen that Allen G. Campbell has just paid a visit to the famous region. He found the patent stakes scattered all round the country and it is accordingly impossible to tell with any degree of certainty as to the location of either the original iron claims or the new silver-lead. It is the intention of Mr. Campbell to have surveys made at once for the purpose of determining the exact locations.

Properties Looking Well.

Colonel Shaugnessy has returned from Angel's Camp, California, where he is operating quite extensively on gold properties. He reports that the mines are in splendid shape and the showing improving with every foot of development. It is understood that there is a deal on in connection with these properties.

Silver Has Moved Up.

The white metal moved up slightly again yesterday, the close on the New York market being 97½ cents, as compared with 96½ cents on the day before. There was still no change in the price of common lead.

Paid Off at Mercury.

Director George Dern, of the Mercury company, went out to the properties yesterday morning for the purpose of paying off for the month of July. In cancelling the rolls he distributed in the near neighborhood of \$5,000. On Monday the board of directors of the company will meet and declare the usual monthly dividend of \$25,000.

Pushing the Tunnel.

It is anticipated that Superintendent Moorehouse, of the Midas, will return to the city within the next few days on special business. The latest advice received from the properties were to the effect that the driving of the development tunnel is being pushed with all the speed possible and the indications are very promising. From recent measurements made by Mr. Moorehouse it is estimated that the face of the tunnel is not more than forty feet from the ore body.

Commercial Operating Smoothly.

General Manager Heffron, of the Commercial, is in the city, having come in from Bingham for the purpose of bringing to the bank the receipt of the last cleanup made at the mill. The value of the gold and silver extracted since the previous melting was between \$700 and \$800.

THE GREATNESS OF ALL OUR Sensational Business Strokes WILL BE OUR UNLOADING SALE

Of 100 Dozen Ladies' Laundered Shirt Waists, in a Burst of Glory. At 8 o'clock sharp Monday Morning this famous Sale begins.

Just 24 Dozen left of our \$1.75, \$1.50, and \$1.25 Waists. All go this week at

95 Cents.

46 Dozen Ladies' Laundered Shirt Waists in new and beautiful patterns, just received, all go at this famous sale at

50 Cents.

30 Dozen of those Dark Blue, with white pin stripes, Shirt Waists that sold in the beginning of the season for \$1.50, all go this week at

75 Cents.

TO OUR OUT OF TOWN PATRONS: Mail Orders for the above goods will receive our prompt and careful attention. Yours Very Truly,

THE

Lace House Co.

122 MAIN STREET.

A COLD BATH

In the morning, taken with one of our soft, fleecy sponges is pleasant and healthful. It's the only right way of starting the day. Puts a man in good humor, immediately. It drives away the sleepy, listless feeling, and makes up the sleepy energy all through the body. The sponge's a good thing, starter, too, sets you wondering about its contents and about other relatives down in the tub—a big one, large and small, Chamols skins, too.
